1 Introduction

This manual is for Club races use, for admin of lofts, pigeons and races.

Decompress the program in a folder, we recommend to decompress in C:\TOPigeonFront\

2 Auto upgrade

Before start using our new club manager, it is important to upgrade your application to the last version, you can find in the folder the executable file named autoupgrade.exe, with this file, you can upgrade automatically to the newest version. When it is finishing download it will open the program automatically.

3 Login with Club Admin account

Enter your user ID and password of the admin account of your club to login the program, if you don't have one please contact your local distributor.

2022/2/14 下午 02:36:46 State: Sync Serve

Multiple delete: Pressing Ctrl or Shift, you can select multiples pigeons and delete.

Export: Export the pigeon list in an excel file (now we do not support import pigeons from the output excel from this program.)

Import: You can import pigeons using the excel in the examples folder

TopigeonFront\Examples\Pigeon List Example.xlsx. Or if you are user of previous version of Club

Management, please export the pigeon list of it. **NOTE: It is important to use the example list, if**

the birds of the list is having Electronic Ring assigned, the format of the excel cell of the e-ring

must be exactly same as the example. If there are any difference in excel cell format, it might be

possible that the clock is not taking the ring during the basketing. Don't copy and paste in the e-

rings.

Loft Button: Filter the list with selected Loft

Download Pigeon Clock to PC button: Transfer the pigeons from clock to the program. **CLOCK MUST BE CONNECT TO PC.**

Upload Pigeon PC to Clock: Transfer the pigeons from the program to the clock. **CLOCK MUST BE CONNECT TO PC.**

8 Carreras

Para administrar las carreras subiendo/bajando desde el reloj, bajar los encastes hecho con el reloj al programa y al terminar bajar las informaciones de las llegadas al programa.
